

Weekly News 23rd March 2018

Well what an exciting week it has been in school!

All the children have loved Science Week, been fascinated by investigations and enjoyed our visitors; Worship on Monday was led by a visitor from the University of York and on Tuesday we welcomed various animals from Wild Science. The week finished with a visit from the Bishop's Visitor who read the Easter letter.

LEARNING NEWS

Caterpillars and Tigers have absolutely loved Science week this week! They have observed how seeds grow in a plastic bag, created an underwater environment, investigated how to melt ice and experimented with giant bubbles! They also really enjoyed learning about and touching the animals that visited us from Wild Science. What an amazing week!

Year 1/2 have had a tremendous time finding out, discovering, exploring and investigating during Science Week! They melted ice hands, mixed up potions, made bird's nests outside and pieced together skeletons! They also decorated their science shirts with all the wonderful things they discovered. What an incredible week Year 1.2 have had!

Years 3/4 have been exploring, experimenting and questioning all week. They have enjoyed being Scientists, Botanists and Physicists and have worked on a range of different experiments. The children have been thinking about the most effective ways to melt ice, explored and created birds' nests, explored the human body, studied animal adaptation and dissected the different parts of a flower! A very busy and fantastic week was had by all!

For those parents with children in Fine Class, I will be providing you with an update regarding staffing as soon as I can next week.

In **Years 5/6** the children enjoyed taking part in lots of different investigations. They found out how natural selection works through a gem hunt, how the skeleton is made up through the use of dog biscuits and how beak shape is important for survival. In English, they have started to write their own myths to finish off their Ancient Greeks topic, and they are looking forward to their final pieces next week!

SWITCH OFF DAY

Another successful Eco Day! All the electricity was turned off on Wednesday and the children really enjoyed the adventure of being in the 'dark'! In total we made a saving of 58%. Over a school year this would amount to £576.45 (based on one day a week).

We are looking forward to our Eco week next term and will be updating you in due course.

SPORTING NEWS

This week, the Y5.6 football team took on Uffington and won 4-2! The boys played exceptionally well, displayed great teamwork and showed great sportsmanship. A very successful game with a hat trick from Leo and a first ever goal for St Gilbert's for Taylor!

In other news, the Y5.6 Tag Rugby team took part in a tournament at Stamford Welland Academy. The team played brilliantly and despite only practising a few times, came a respectful 5th. We were all very proud of their teamwork.

Prokick Challenge

On Thursday, Y1-6 took part in the Prokick challenge. All the children had great fun, cheering on their classmates to do their best. It was very well organised and we can't wait to hear who was the fastest boy and girl! Thank you to the children and parents for their sponsorship money.

DATES TO REMEMBER!

27/03/2018 Open Afternoon 2:30pm - 3:00pm

27/03/2018 Class Photographs

27/03/2018 SALE of New & Second Hand Uniform 3:00pm Hall
